SAYED TAHSINOOR RAHMAN
Chittagong, Bangladesh
mail.tahin99@gmail.com | +8801927279731 | LinkedIn | GitHub

I am enthusiastic about problem solving and have four years of experience in competitive programming. I have a strong work ethic, which makes me a hard worker, punctual, and responsible towards my work. Besides, I have experience working on several academic projects in Qt, Java, and Flutter. Now I am looking for an opportunity in the field of software engineering to apply and develop my skills.

ONLINE JUDGE's PROFILE

- Codeforces Max Rating : **1488 (Specialist)**
- CodeChef Max Rating : **1724 (Old 1773)**
- Leetcode Max Rating : **1545**
- Participated in more than **200 online programming contests** in different online judges
- Solved **2200+ problems** (Codeforces, CodeChef, AtCoder, Leetcode, LightOJ, Uva, CSES, VJudge)

ACHIEVEMENTS

- Represented my university at **2022 ICPC ASIA DHAKA REGIONAL CONTEST**
- **4th Place |** EDU Inter University Engineering Day 2022 Programming contest (**Divisional**)
- **Champion |** IIUC Intra-University Programming Contest Autumn 2022
- **Champion |** IIUC Intra-University Programming Contest Autumn 2021
- **1st Runners-up |** IIUC Intra University Programming Contest (Senior)
- **2nd Runners-up |** IIUC CCE Fest Intra Department Programming Contest 2022
- **5th Place |** IIUC CSE FEST 2022 Tech Olympiad

TECHNICAL SKILLS

- Computational Problem Solving, Algorithm, Data Structure, OOP
- Programming Languages : C, C++, Java, JavaScript
- Database : ORACLE, SQLite, MongoDB
- Framework : Qt, Flutter
- Version Control System: git , GitHub
- Operating System : Windows

ACADEMIC PROJECTS

- **Library Management System** using **JAVA Swing** and **ORACLE** database
  A desktop app for libraries where you can borrow and return books with a history of both students and books.
- **Student Data Management** using **Qt** and **SQLite** database
  A desktop app where student information can be managed. Here, basic CRUD operations are implemented
- **Personal Expense Tracker** using **Flutter**
  A mobile app to track daily expenses and show weekly expense bars.
- **Customer Billing System** using **C++** and file I/O
  A console-based C++ project that implements the billing system of a store.
- **Tic Tac Toe** Using **Qt**
  Classic Tic Tac Toe implemented with Qt.

EDUCATION

- **B.Sc. in Computer Science and Engineering**   **CGPA 3.826 out of 4.00**
  International Islamic University Chittagong   April 2019-June 2023

EXPERIENCE

- **Trainer & Mentor** (Jan 22 - Present) at **IIUC Competitive Programming Society**
- **Teaching Assistant** (June 22 - Present) at **International Islamic University Chittagong**
- **Problem Setter and Tester** at Several Junior Programming Contest

VOLUNTEERING

- **Assistant General Secretary** (Jan 23 – Present) at **IIUC Competitive Programming Society**
- **Bootcamp Coordinator** (June 22- Jan 23) at **IIUC Competitive Programming Society**
